

# OSTRA ESSENTIALS™

For Your Business

## You want reliable eyes on glass. No complexity. No surprises.

You have tools in place – maybe even some logging or EDR – but you’re lacking dedicated eyes on glass. Your team is already stretched, and no one’s on-call at 3 a.m. Ostra Essentials gives you around-the-clock threat detection, human alert triage, and real response actions when something matters. It’s the fastest way to get external SOC coverage without overhauling your security stack or onboarding another noisy MDR provider.

Whether you're building your first line of defense or just need the coverage for compliance and cyber insurance, Essentials brings clarity, speed, and expert support to your security operations – without complexity.

### Benefits of Essentials

Your trusted cybersecurity team

24/7 Managed  
Detection &  
Response

24/7 Managed  
XDR

Collector &  
Sensor

Threat Detection  
Pipeline

Monthly Reports  
& Trends

### Best-in-Class Foundation

Start strong. Stay lean. Let Ostra watch and respond while you focus on the rest.

24/7 human monitoring  
and triage – no more  
alert fatigue

Works with your existing  
tools – no rip-and-  
replace

Foundation for  
compliance, insurance,  
and fast wins

Ostra believes everyone deserves best-in-class cybersecurity, not just big business.

## The Ostra Difference

### PROPRIETARY MESH ARCHITECTURE:

#### UNMATCHED PROTECTION

- Enterprise-grade protection, architected for simplicity
- Unified mesh design delivers layered security without complexity
- Built for flexibility, performance, and secure data sharing

### DATA RIVER:

#### UNMATCHED THREAT INTEL

- Always-learning threat intelligence engine powered by real-world telemetry
- Continuously enriched like an immune system – getting smarter with every signal
- Enabled by our mesh architecture and global sensor network

### HUMAN EXPERTISE:

#### UNMATCHED RESOLUTION

- Our cybersecurity analysts act as an extension of your team
- We don't just detect – we guide, remediate, and resolve
- Deep analyst and research bench fuels faster decisions and better outcomes
